Subject: Water diversion & Use

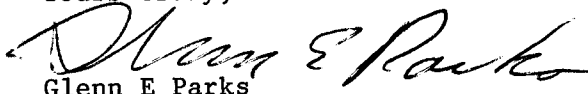

Sirs:

Enclosed find "Supplemental Statement of Water Derversion and Use for three diversions in Corral Canyon. These reports are for years 1987 to 1992. We have not used any water during thoes years, due to drough. We are planning to divert again this year, 1993, as creek is flowing again. I have used statement #67 for the diversion built in 1920 ±, and statement #68 for diversion put in place in 1959, and statement #69 for diversion put in place in 1960.

I have also enclosed statements for our diversion in Las Varas Canyon. I don't remember when we first used this diversion, but believe around 1979 big rain year. I have enclosed statements for years 1984 to 1992. It is dificult to estimate flow, as we have a 50± GPM pump, that is on a float switch, that runs all the time in the spring, and then only part time as weather turns warmer, and flow slows down. We had 75± acres of avocados when we started, but removed 20 acres in 1990, when we ran low on water.. I currently keep track of rain fall, but didn't in earlier years.

Thanks for your help in updating our statments...

Yours truly,

  
Glenn E Parks
